

Math Skill Set - Grade 1		Unit 3: Ordering and Comparing Length Measurements as Numbers	
LA State Standard	Web Practice	Skill	Example/Note
1.MD.1	<a href="#">Practice</a>	Put three lengths in order	<p>Three children each have a paintbrush. Sam's brush is short. Ian's is shorter than Sam's. Ida's is shortest of all. Circle Sam's paintbrush.</p> 
<u>1.MD.1</u>	<a href="#">Practice</a>	Compare two lengths	<p>Which of these objects is probably longer than your shoe?</p> <p>Backpack   pen   bar of soap   paper clip</p>
1.MD.2	<a href="#">Practice</a>	Measure an object by using a shorter object repeatedly	<p>About how many paper clips long is the snake?</p> 

1.MD.4

Practice

Interpret data with up to three categories

🔦 Hasim sorted through the family junk drawer and found some tape measures, screwdrivers, and yellow blocks. He made a bar graph of the items he found:

🔦 How many screwdrivers did he find?

screwdrivers
